HORSE SHOE BRAND

INTERIOR-GLOSS
FINISH

A BETTER FINISH for Walls and Woodwork

This ideal Interior Gloss Finish may be washed repeatedly without injuring the beauty and permanence of the finish. It is excellent for bath rooms and kitchens.

These splendid shades are also very practical for any wall surface or woodwork where a gloss finish is desired.

INTERIOR GLOSS

Excellent for walls and woodwork in homes, public buildings, hotels, hospitals, schools and similar structures where gloss finish is required. Be certain the previous coat is thoroughly dry before applying the next.

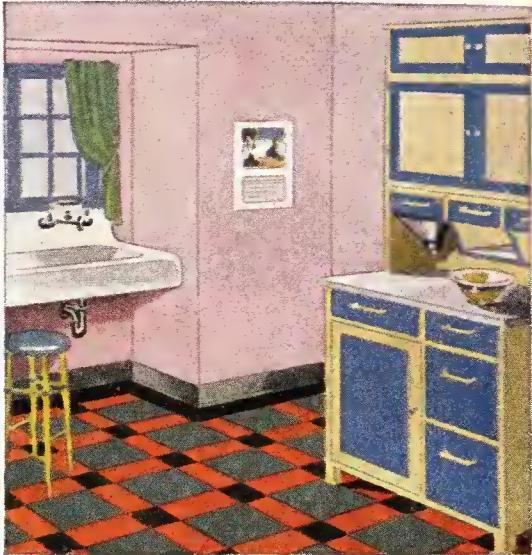

SUGGESTIONS FOR USE

See that the material is well mixed before using. On newly plastered walls and old walls that have never been painted, it is well to use Pigment Wall Sealer. This material will seal all hot spots and prevent suction. The surface must be thoroughly clean and free from grease and dirt.

For New Work . . . In plaster surfaces fill all cracks with patching plaster and allow to dry. Sandpaper the rough spots and dust carefully. Apply a coat of Interior Gloss thinned with a little of the final color desired. Before the application of the first coat, fill all nail holes and seams with putty. For best results two coats are recommended.

Old Work . . . should be sanded lightly and wiped clean. Remove all loose or cracked paint first. Mix thoroughly as directed and apply as it comes in the container.
